

CALL FOR NOMINATIONS – TAC AWARDS 2017

Educational Achievement Environmental Achievement Road Safety Engineering Sustainable Urban Transportation

Full submissions are due March 3, 2017

Every year, the Transportation Association of Canada presents several awards to recognize the technical excellence and the contributions resulting from the endeavours of its members. In 2017, four major awards will be conferred and all TAC members, including individuals, public agencies, private companies, academic institutions, and related transportation organizations are eligible. Please consider making a nomination on behalf of yourself or another TAC member.

Complete nominations must be received at the TAC Secretariat prior to 15:00 EST on March 3, 2017. (A preliminary submission of a one-page abstract, due December 12, 2016 is required for all the Technical Excellence Awards.

Posters promoting the awards can be downloaded from the TAC website. Additional information, including a description of subject areas, nomination requirements and evaluation criteria is also available at the addresses indicated below.

Educational Achievement Award

<http://www.tac-atc.ca/en/about-tac/awards/technical-excellence/education>

The Educational Achievement Award recognizes outstanding contributions by a TAC member in the area of education and/or training relating to an in-house or external program, which has one or more noteworthy elements of innovation, demonstrable payoff, widespread recognition, improved skills sets, improved practices, or providing the foundation for future and better business practices of the member or the transportation community in general.

Environmental Achievement Award

<http://www.tac-atc.ca/en/about-tac/awards/technical-excellence/environmental>

The Environmental Achievement Award recognizes exemplary contributions by a TAC member in the protection and enhancement of the environment as well as particularly innovative approaches to solving an environmental problem while providing transportation services.

Road Safety Engineering Award

<http://www.tac-atc.ca/en/about-tac/awards/technical-excellence/road-safety>

The Road Safety Engineering Award is intended to honour exemplary contributions by a TAC member in Canadian roadway safety engineering and infrastructure. The Award encourages the development and implementation of roadway safety countermeasures, guidelines and safety management systems for roadway design and operations.

Sustainable Urban Transportation Award

<http://www.tac-atc.ca/en/about-tac/awards/technical-excellence/sustainable-urban-transportation>

The Sustainable Urban Transportation Award recognizes outstanding contributions by a TAC member in the development and enhancement of sustainable urban transportation as well as for innovation and transferability to other Canadian communities.
