

TABLE OF CONTENTS

1	INTRODUCTION	1
1.1	Background and Purpose.....	1
1.2	Outline of the Document.....	2
2	LEGISLATION AND REGULATIONS	3
2.1	Overview of the <i>Migratory Birds Conventions Act, 1994</i>	3
2.1.1	Important Definitions under the <i>Act</i>	3
2.1.2	Application and Purpose of the <i>Act</i>	5
2.1.3	Prohibitions under the <i>Act</i>	5
2.1.4	Offences and Penalties under the <i>Act</i>	5
2.1.5	Due Diligence under the <i>Act</i>	6
2.1.6	Incidental Take under the <i>Act</i> (Historical and Current Context)	6
2.2	Overview of the <i>Migratory Birds Regulations, 2014</i>	6
2.2.1	Important Interpretation under the <i>Regulations</i>	6
2.2.2	Permits under the <i>Regulations</i>	7
2.2.3	General Prohibitions under the <i>Regulations</i>	7
2.3	Overview of the <i>Migratory Bird Sanctuary Regulations</i>	7
2.4	Overview of the <i>Species at Risk Act (SARA)</i> as it Applies to Migratory Birds	8
2.4.1	Important Definitions under SARA	10
2.4.2	Application and Purpose of SARA	10
2.4.3	Prohibitions under SARA.....	11
2.4.4	Migratory Birds and SARA.....	11
2.4.5	Offences and Penalties under SARA	12
2.4.6	Due Diligence Under SARA.....	13
2.5	Provincial and Territorial Statutes Protecting Birds	13
3	MIGRATORY BIRD BIOLOGY AND CONSERVATION	15
3.1	A Primer on Bird Biology	15
3.1.1	List of Birds Protected Under the <i>Act</i>	15
3.1.2	Migratory Bird Nests	15
3.1.3	Re-use of Nests by Migratory Birds	19
3.1.4	Migratory Bird Nesting Zones	20
3.1.5	Colonial Birds	21
3.1.6	Other Aspects of Migratory Birds' Lifecycle.....	21
3.2	Conservation of Migratory Birds in Accordance with the <i>Act</i>	24
3.2.1	Bird Conservation Regions and Conservation Strategies.....	24

4	SUMMARY OF LEGISLATIVE AND REGULATORY REQUIREMENTS RELATED TO THE CANADIAN TRANSPORTATION AND ROADWAY SECTOR.....	27
5	CASE STUDIES AND MITIGATION MEASURES: OIL, GAS AND PIPELINES.....	35
5.1	Case Study: Oregon Terminal and Oregon LNG Pipeline Project.....	35
5.2	Case Study: Rockies Express Pipeline (REX), East Project	37
5.3	Case Study: Green Light to Birds – Investigation into the Effect of Bird-Friendly Lighting	40
6	CASE STUDIES AND GENERAL MITIGATION MEASURES: LAND DEVELOPMENT SECTOR ..	43
6.1	Case Study: Avian Screening Private Development, Ottawa, Ontario	43
6.2	Case Study: Vegetation Clearing and Avian Screening, Kanata, Ontario	44
6.3	Case Study: Management of Stockpiled Materials, CFB Borden, Ontario.....	46
7	CASE STUDIES AND GENERAL MITIGATION MEASURES: CREATION OF NEW ROAD FACILITIES	49
7.1	Case Study: Construction of a New Toll Road, Texas.....	49
7.2	Case Study: Least Bittern Monitoring, Highway 7 Overpass, Ashton Station, Ontario	51
7.3	Case Study: Screening of the Inner Loop, Highway 7 Overpass, Ashton Station, Ontario...	52
8	CASE STUDIES AND GENERAL MITIGATION MEASURES: OPERATION AND MAINTENANCE OF EXISTING ROAD FACILITIES	55
8.1	Case Study: Highways 62 and 127 Culvert Replacements, Ontario	55
8.2	Case Study: Rehabilitation of the Muskrat River and Indian River Bridges, Ontario	56
8.3	Case Study: Ministry of Transportation Bridge Replacement, Ontario.....	60
8.4	Case Study: Conservation Alternative Mowing Plans, New York State Department of Transportation.....	61
8.5	Case Study: Highway 28 Culvert Replacements, Ontario.....	62
8.6	Case Study: Stokely Creek Bridge Rehabilitation, Havilland, Ontario.....	63
8.7	Case Study: Mariposa Creek Culvert Rehabilitation, Highway 7, Ontario.....	65
8.8	Case Study: Steventown Creek Culvert Rehabilitation, Highway 401, Ontario	66
8.9	Case Study: Bridge Rehabilitation, Six Nations of the Grand River, Ontario	68
8.10	Case Study: Little Bow Reservoir Rehabilitation and Upgrading, Alberta.....	69
8.11	Case Study: Mayo Bridge Rehabilitation, Yukon	70
8.12	Case Study: Removal of Incomplete “Nests”	71

9	CONDENSED CASE STUDIES FROM THE U.S. DEPARTMENT OF TRANSPORTATION	73
9.1	U.S. Federal Highway Administration Bridge Projects.....	73
9.1.1	Flexible Bridge Lighting Design, Ravenel Bridge, South Carolina Department of Transportation	73
9.1.2	Fruit Tree Bird Netting to Exclude Cliff Swallows on the Pal Verde Bridge in Riverside County, California.....	73
9.1.3	Makeshift Barriers to Exclude Swallows from California Bridge.....	73
9.1.4	Use of Insulation Fabric and Plastic Drainage Covers to Exclude Migratory Birds from Bridges.....	74
9.1.5	Relocation of Peregrine Falcon Nest, Connecticut	74
9.1.6	Bird Deterrent Netting on Humpback Bridge, Delaware	74
9.1.7	Use of Metal Poles to Reduce Seabird Death near Sebastian Inlet, Florida	74
9.1.8	Use of Black Tarp to Hide Workers from Nesting Bald Eagles	75
9.1.9	Tarping St. Joseph Creek Bridge to Prevent Swallows Nesting During Construction.....	75
9.1.10	Use of Gel to Keep Cliff Swallows off Montana Bridges	75
9.1.11	Peregrine Falcon Nesting Boxes on a Bridge in New York City	76
9.1.12	Speed Limits on a Bridge in North Carolina to Protect Purple Martins	76
9.1.13	Specific Language in Contract Documents to Protect Cliff Swallows	76
9.1.14	Fencing of Texas Bridge to Reduce Purple Martin Mortality.....	77
9.1.15	Creating Nesting Habitat for Peregrine Falcon on Bridges in Virginia	77
9.1.16	Discouraging Pelagic Cormorants Nesting on Washington State Bridge.....	77
9.2	U.S. Federal Highway Administration Wetland and Upland Projects	77
9.2.1	Raptor Platforms, Arkansas	77
9.2.2	Creating Burrowing Owl Nesting Habitat, California	78
9.2.3	Aviation Balls Installed on Power Lines to Protect Wood Storks.....	78
9.2.4	Constructing Nest Boxes to Provide Nesting Opportunities for Birds	78
9.3	U.S. Federal Highway Administration Along Roads.....	78
9.3.1	Low Maintenance Transition Zones along Arkansas Highways	78
9.3.2	Reduction in Lighting along Highways in Hawaii to Reduce Seabird Mortality	79
9.3.3	Illinois Culvert Ledge program for Eastern Phoebe	79
9.3.4	Creating Habitat for Endangered Red-cockaded Woodpecker in Louisiana.....	79
9.3.5	Relocation of a Habitual Nest-reusing Species: the Ferruginous Hawk, Montana.....	80
9.3.6	Osprey Nest Platforms along Montana Highways	80
9.3.7	Right-of-Way Management for Grassland Nesting Species along the Lake Ontario State Parkway, New York State	80
9.3.8	Nest Box Placement along the Lake Ontario Parkway, New York State	81
9.3.9	Placement of Bald Eagle Perches in Right-of-Way, Oklahoma	81
9.3.10	Quiet Guardrail Installation, Oregon	81
9.3.11	Roadside Mowing to Protect Ground Nesting Gamebirds, South Dakota.....	82
9.3.12	Native Grasslands in Highway Rights-of-Way, Virginia.....	82
9.3.13	Change in Policy for New Highway Construction, West Virginia	82

10	SYNTHESIS OF BENEFICIAL PRACTICES	87
10.1	Beneficial Practice #1: Knowledge of Legal Obligations Under the <i>Act</i> and <i>Regulations</i>	87
10.2	Beneficial Practice #2: Maintain Written Records	88
10.3	Beneficial Practice #3: Project Planning	88
10.4	Beneficial Practice #4: Risk Assessment	88
10.5	Beneficial Practice #5: Avoidance	89
10.6	Beneficial Practice #6: Engagement of an Avian Expert	90
10.7	Beneficial Practice #7: Communication	91
10.8	Beneficial Practice #8: Temporary Exclusion Measures	93
10.9	Beneficial Practice #9: Vegetation Management (Maintenance and Minor Clearing) Outside Bird Nesting Season	94
10.10	Beneficial Practice #10: Bird Deterrent Devices and Techniques	95
10.11	Beneficial Practice #11: Management of Harmful Substances	96
10.12	Beneficial Practice #12: Management of Exposed Soils, Aggregate Extraction Areas, Excavations and Stockpiled Materials	96
10.13	Beneficial Practice #13: Water Level Regulation	97
10.14	Beneficial Practice #14: Retention of Bird Habitat Features After Rehabilitation or Replacement of Existing Infrastructure	97
10.15	Beneficial Practice #15: Conservation of Migratory Birds through Design Elements and Habitat Feature Installation	98
10.16	Beneficial Practice #16: Submit Nest Monitoring Results to Project NestWatch	100
10.17	Beneficial Practice #17: Use of Physical Barriers	100
11	THE CWS APPROACH TO BENEFICIAL MANAGEMENT PRACTICES	101
11.1	Relevance of Bird Conservation Region Strategies to Project Planning and Implementation	101
11.2	Federally Protected Birds Known to Breed Regularly in Canada	102
11.3	Project NestWatch	102
11.4	General Nesting Periods of Migratory Birds	102
11.5	Bird Nesting Query Tool	104
11.6	Migratory Bird Nest Use	104
11.7	Bird Behaviour and Nesting Activity	104
11.8	Buffer Zones from Active Nests	106
11.9	CWS Bird Conservation Region Priority Species and Habitat	108
11.10	Colonial Birds	108

12	RECOMMENDATIONS	111
12.1	Rationale for the Development of a National-Level Framework.....	111
12.2	Tool 1: Background Review	112
12.2.1	Step 1: Desktop Review	113
12.2.2	Step 2: Field Review	113
12.2.3	Step 3: Standard Summary Form	114
12.3	Tool 2: Risk Assessment Process	115
12.3.1	Step 4: Beneficial Management Practices	115
12.3.2	Step 5: Impact Assessment	116
12.3.3	Step 6: Determine the Need for Additional Mitigation or Compensation	117
12.4	Project Risks Can Be Reduced but Not Eliminated	117
13	CONCLUSIONS	119
14	GLOSSARY	121
15	BIBLIOGRAPHY	123
	APPENDIX A: LIST OF BIRDS PROTECTED BY THE <i>MIGRATORY BIRDS CONVENTION ACT</i>	133
	APPENDIX B: LIST OF BIRDS PROTECTED BY THE <i>SPECIES AT RISK ACT</i>	145

TABLE OF CONTENTS

1	Introduction	1
2	Scope	2
3	Legislative Considerations.....	4
4	Mitigation Measures.....	6
4.1	Project Planning	6
4.2	Avoidance and Timing.....	6
4.3	Integrated Vegetation Management	8
4.4	Equipment Operation	8
4.5	Avian Experts and Screenings	9
4.6	The Dilemma with Nest Searches and Breeding Codes as it Relates to the <i>Act</i> and <i>Regulations</i>	10
4.7	Buffer Zones.....	10
5	Vegetation Management Actions	13
5.1	Pruning of Woody Vegetation	13
5.2	Removal of Woody Vegetation	13
5.3	Mowing	13
5.4	Herbicide Application.....	14
5.5	Alternative Vegetation Management Tools.....	15
6	Sustainability Measures for Right-of-Way Vegetation Management.....	16
7	Documentation	17
8	Key Concepts.....	18
9	References	19

List of Appendices

Appendix A: General Overview of Bird Nesting Biology and Nesting Locations Where Migratory Birds may be Encountered.....	21
Appendix B: Vegetation Management Decision Tool	25
Appendix C: Breeding Evidence and Breeding Evidence Codes.....	27
Appendix D: List of Birds Protected by the MBCA that are Addressed by this Operational Guidance Document	31
Appendix E: Birds Protected by the <i>MBCA</i> and Listed as Endangered, Threatened or Extirpated in Schedule 1 of the <i>Federal Species at Risk Act (SARA)</i>	39
Appendix F: Risk Management Framework.....	41

TABLE OF CONTENTS

1.	Purpose	1
2.	Scope.....	2
3.	Legislative Considerations.....	4
4.	Mitigation Measures to be Implemented during Infrastructure Improvement or Replacement Activities	5
5.	Sustainability Measures to Enhance the Nesting Efforts of Migratory Birds after Completion of Infrastructure Improvement or Replacement Activities.....	6
6.	Documentation	8
7.	Key Concepts.....	9
8.	References	10

Appendices

Appendix A: An Overview of Mitigation Measures to Minimize Adverse Impacts to Migratory Birds, Eggs and Nests	13
Appendix B: Biological Attributes of Migratory Bird Species.....	16
Appendix C: Mitigation Measures for Bridge and Culvert Rehabilitation and Replacement Activities.....	19
Appendix D: Sustainability Measures to Enhance the Nesting Efforts of Migratory Birds.....	26
Appendix E: Risk Management Framework	37
