

2022

CONFERENCE & EXHIBITION

OCTOBER 2-5
EDMONTON, AB

#TACconf is hosted by
Alberta Transportation
in partnership with the
City of Edmonton and
the City of Calgary.

Welcome back

to TAC's in-person conference at the
Edmonton Convention Centre!

FEATURING AN OPENING PLENARY SESSION ON THE CONFERENCE THEME:

Changing Ways for Our Changing Climate

The impacts of climate change – extreme temperatures, major storms, flooding, erosion, wildfires and more – present serious challenges for transportation in Canada. Panelists will explore approaches to mitigating climate change and creating more resilient infrastructure as well as discuss transportation planning and engineering practices to address climate change, the financial implications of building more resilient systems, and strategies for responding effectively to future events.

Why attend #TACConf?

PACKED AGENDA

The technical program includes **60+ sessions in 19 different topic areas**, including mobility management; connected and automated vehicles; road safety; road design; traffic management; structures; and more!

EXPERT SPEAKERS

200+ presenters share their passion, vision and solutions, the latest developments, and progress on emerging and critical issues that touch on safety, mobility and technology.

NETWORK

Whether it's brainstorming with peers during a workshop, chatting with a new connection at lunch, or meeting a potential supplier in the exhibition hall, **you'll make vital contacts.**

LEARN

Learn something new you can implement immediately, discover **industry-specific knowledge that helps you grow** personally and professionally, and benefit from the experiences of your peers.

SIMULATORS

Just like the real thing! How will you fare in the driver's seat of a **snow plow simulator** (courtesy of Ledcor Group) or a **truck driving simulator** (courtesy of the Alberta Motor Transport Association)?

NEW TECHNOLOGIES & INNOVATIONS

The Exhibition profiles the latest products and technologies. **Visit dozens of booths** showcasing transportation suppliers, manufacturers, and service providers.

TECHNICAL TOURS

Take a **behind-the-scenes guided tour** of Edmonton's transportation infrastructure projects and innovations!

IT'S FUN!

Shake up your work routine while taking opportunities to build relationships with peers and potential partners.
