# Table of contents

|   |           |
|---|-----------|
| <b>Executive summary</b> .....                            | <b>i</b>  |
| <b>Glossary</b> .....                                     | <b>iv</b> |
| <b>1. Introduction</b> .....                              | <b>1</b>  |
| 1.1 Context .....   | 1         |
| 1.2 Objectives and scope.....                             | 1         |
| 1.3 Approach .....  | 2         |
| 1.4 Organization of this report.....                      | 3         |
| <b>2. Literature review</b> .....                         | <b>5</b>  |
| 2.1 Training highly qualified personnel .....             | 5         |
| 2.2 The future of transportation technology .....         | 11        |
| 2.3 Required core competencies.....                       | 12        |
| 2.4 Key challenges and opportunities .....                | 14        |
| <b>3. Stakeholder engagement</b> .....                    | <b>17</b> |
| 3.1 Road authorities .....                                | 18        |
| 3.2 Academics .....                                       | 28        |
| 3.3 Professional associations .....                       | 36        |
| 3.4 Technology industry .....                             | 42        |
| 3.5 Summary of findings.....                              | 47        |
| <b>4. Gap analysis</b> .....                              | <b>49</b> |
| 4.1 Educating the future transportation workforce.....    | 49        |
| 4.2 Training the existing transportation workforce .....  | 52        |
| 4.3 Human resources practices and agency governance ..... | 53        |
| <b>5. Action plan</b> .....                               | <b>55</b> |
| 5.1 Recommended actions.....                              | 55        |
| 5.2 Guiding principles and organizational roles .....     | 73        |
| <b>Bibliography</b> .....                                 | <b>77</b> |

## List of figures

|   |    |
|---|----|
| Figure 1: Perceived level of readiness .....  | 26 |
| Figure 2: Expected impact of disruptive technologies.....                                   | 37 |
| Figure 3: Importance of technical competencies for engineering workforce .....              | 38 |
| Figure 4: Functional skills required for engineering workforce.....                         | 39 |
| Figure 5: Views of professional associations on the role of colleges and universities ..... | 40 |
| Figure 6: Views of professional associations on the role of road authorities.....           | 41 |
| Figure 7: Views of professional associations on their own role .....                        | 41 |

## List of tables

|   |    |
|---|----|
| Table 1: Stakeholder engagement .....   | 17 |
| Table 2: Agencies participating in focus groups .....                                 | 19 |
| Table 3: Summary of course outlines .....   | 30 |
| Table 4: Important skills identified by road authorities and the literature .....     | 31 |
| Table 5: Hard skills included in transportation course outlines .....                 | 31 |
| Table 6: Identified gaps – Educating the future transportation workforce.....         | 50 |
| Table 7: Identified gaps – Training the existing transportation workforce .....       | 52 |
| Table 8: Identified gaps – Human resources practices and agency governance .....      | 53 |
| Table 9: Recommended actions – Educating the future transportation workforce.....     | 57 |
| Table 10: Recommended actions – Training the existing transportation workforce .....  | 62 |
