

## MCSC VOLUNTEER PROJECTS

August 2015

Project	Chair	Description / Status
Guide for the accommodation of utilities within freeway rights-of-way	L. Arcand S. Murphy	<p>This project will develop a Guide for the Accommodation of Utilities within Freeway Rights-of-way which will described the conditions under which public and private utilities may be accommodated within freeway rights-of-way. This guide will be the first step towards the development of a comprehensive guide about public utilities in highway rights-of way.</p> <p><b>Status:</b> In progress</p>
Guidelines for underground utility installations crossing highway rights-of-way	N. Tremblay	<p>This project will develop Guidelines for Underground Utility Installations Crossing Highway Rights-of-Way which will described the conditions under which public utilities crossing highway rights-of-way may be accommodated. The proposed guidelines will place emphasis on the encasement of pipelines and water mains crossing highway rights-of-way. These guidelines will be the second step towards the development of a comprehensive Public Utilities in Highway Rights-of-Way Guide.</p> <p><b>Status:</b> Published 2013</p> <p><a href="http://tac-atc.ca/en/bookstore-and-resources/bookstore">http://tac-atc.ca/en/bookstore-and-resources/bookstore</a></p>
