Watt Consulting Group (WATT) Transportation department is growing and we are currently looking to hire a **Senior Transportation Engineer** for our Calgary office.

This position will offer career growth and development to the person who is looking for an opportunity to be part of a growing and diverse company. As a key member of the team, this position will primarily involve in identifying and developing existing and new business development opportunities with clients in both the public and private sector in southern Alberta and throughout Western Canada. This role includes working closely with the transportation team to provide transportation planning and engineering inputs to projects in other divisions. An important part of the role is also to provide leadership and mentorship to other staff in developing their technical and soft skills.

**Qualifications:**

♦ Successful completion of a Bachelor’s Degree in Civil Engineering from an accredited University.

♦ Must be a registered member or have the ability to become a member of the Association of Professional Engineers and Geoscientists of Alberta (APEGA).

♦ 8 plus years’ engineering experience including transportation planning, traffic engineering analysis and transportation system impact evaluation.

♦ Knowledge of Transit Oriented Development (TOD), active modes analysis, road safety and parking is considered beneficial.

♦ Application and understanding of micro simulation and capacity analysis software is required.

♦ Demonstrated leadership skills with the ability to work in a team environment to coach, mentor and motivate staff.

♦ Excellent verbal, written and interpersonal communication skills.

♦ Strong analytical and organizational skills.
Key Responsibilities:

♦ Managing a wide variety of transportation projects in southern Alberta and throughout Western Canada.
♦ Providing transportation planning and engineering input to projects led by staff in other Divisions.
♦ Preparing proposals for public and private sector transportation planning projects;
♦ Presenting technical information to clients and/or the public.
♦ Developing business opportunities with existing and potential clients.
♦ Peer-reviewing work completed by other senior members of the team.
♦ Coach, mentor and provide technical leadership to the Transportation Group.
♦ Maintain technical competence in engineering and project delivery.

Company Information:
Since 1983, Watt Consulting Group has been a multi-disciplinary civil engineering, transportation planning and land survey practice, operating out of offices in Calgary, Victoria, Kelowna, Edmonton and Lloydminster. We provide transportation planning, engineering and geomatics services to a wide variety of public and private sector clients throughout Western Canada. We take pride in long-standing relationships with our clients throughout Alberta, Saskatchewan and British Columbia. You will be joining a team that is passionate about what they do and a team who hold themselves to a high standard of excellence. We take our work seriously and coupled with individual respect and a healthy dose of humour, we excel and grow as individuals and as a team with every project.

If you are looking for an exciting opportunity and to grow your career in a dynamic organization, owned and led by employees, submit your resume to careers@wattconsultinggroup.com.

Ownership opportunities will also be available to the successful candidate.

We thank all applicants for their interest. However, only candidates selected for an interview will be contacted. WATT Consulting Group is an equal opportunity employer.
